Bob

Telecon Bo W.H. (314) 925 4857

Questions: After our training program, how long a period is the entrainment go far? After that period how many hours per quarter will be required for reinforcement and how would that time have to be divided.

He will be in office at 7:30 am to receive call

Suggestion that we slant for battalion level

In a company there is a Capt and 4 lieutenants and you can count on a senior NCO for each officer. This is the group this it is suggested that we test. Should this group be acceptable we may receive criticism that we have omitted the troops. Suggested reply. If the Command is behind program they can get troops to support same.

At the Battalion level there is 1 Lt Col, 2 majors, about 4 captains and 4 lieutenants. Again for every officer there is a senior NCO

Bo spoke to a Lt Col Buckmeyer at Ft. Lewis who stated that they have a good test facility but lack personnel. Therefore they generally call in other groups to monitor tests or farm out the

test to other commands which they monitor.

We also spoke to a Dr Seward Smart who is in charge of test facilities at Ft Benning who confirmed the above statement and indicated that they do testing for Ft Lewis.

Therefore our testing or evaluation may not be at Fort Lewis
